COLUMBIA, MO., Nov. 14.—(Special.) Manager Lucas received a telegram to-day from Manager Elliott, of Lawrence, Kas., saying that the Kanasa-Missouri game would be played in open sir if the Convention hall people would release them from their contract. One reason Kansas has insisted on playing in the ball is that seats there would sell from \$1\$ to \$2.50.

Great enthusiasm is manifested over the game with Washington university, next Saturday. The Midland and also the Wabash have offered a rate of \$2.75 to \$81. Louis and return, and a large crowd will take advantage of the rate.

The Tigers are not at all in good condition, McCuslin has boils; Sanders has rheumatism; Kramer has a sprained ankle and Thurman, their prize goal kicker, is laid up and may not be she with the alumn of Missouri university on football matters.

Manager Rothwell and Dr. Thilly left to-night for \$1. Louis, where they will confer with the alumn of Missouri university on football matters.

At the close of the eighteenth round Hamilton forced the fighting, and had Gardner on the ropes in close proximity to the central uprights, doding and ducking right and left swings when the beling. The nineteenth was Hamilton's round, he getting to body and head with both hands, and in a mixup Gardner slipped to his kneez. In the twenty-first round Gardner kept up a continuous labbing, which stalled off the frequent rushes of his opponent. He kept this style of defense up to the erd of the twenty-third round, when he retired to his corner in a very weakened condition.

Hamilton made a rapid rally in the twenty-fourth and rushed Gardner around the ring, swinging with both hands for body and head, but Gardner's clever ducking evaded many of these blows, and he got in several good counters. In the final round Hamilton went in with renewed energy in order to secure something decisive, but Gardner was on the alert and blocked and countered beautifully until the beli rang.

Only a small attendance was at the regular meeting of the Commercial Club last night and the programme was very informal. Reports were made on the enter-tainment of the officers of the Twentieth Kansas regiment last week by members of the committee. President Epperson said he would like an expression from the club as to the advisability of urging employers hiring ex-members of the Third and Fifth Missouri and the Twentieth Kansas regiments, other things being equal. Following this suggestion, J. V. C. Karnes offered this resolution, which was adopted: Realizing the bravery displayed by the volunteer soldiers who responded to the call of the president of our country, and believing that a grateful people should appreciate, in a substantial way, the services

should appreciate, in a substantial way, the services of these men, therefore, be it.

Resolved, By the Commercial Club of Kansas City, that we recommend to the various communities where the ex-soldiers reside, the favorable consideration of such communities, to the end that all those who were willing to go to the front may speedily be reinstated in the civil walks of life, in positions which will afford them the opportunity of earning a livelihood commensurate with their ability; and, be it further quest the daily papers of Kansas City to publish these resolutions, and that he incorporate them in the minutes of this meeting.

Mr. Epperson then announced that he Mr. Epperson then announced that he would have the secretary read the article on trusts in the current number of Scribner. He said he had no disposition to precipitate a discussion of the subject, but he thought the article a very able one and that many of the business men present had had no time to read it for themselves.

effective November 27. This is only a forerunner of the numerous advances that will be made by the individual lines of that association. Following the action of the Central Freight Association, the Eastern trunk lines will advance the rates from New York west bound. The traffic officials of the Eastern trunk lines will neet in New York on Thursday for the purpose of taking individual action in advancing the rates. The increase will be accomplished mainly after the system pursued by the Central lines—that is, by abolishing the commodity rates and making the shipments subject to the classification.

As already stated, the lines in the Central Freight Association, which is bounded on the west by the Mississippi river, and on the east by Buffalo and points on the Ohlo river, have agreed to take individual action and abolish all commodity rates on January 1. As many of the lines in the Central Association extend through trunk line territory, it is necessary for the latter to adopt similar measures for the abolition of "commodity" rates.

On an average, freight rates will be increased by about 15 per cent by making the articles which have heretofore enjoyed commodity rates subject the regular classification. This rate of increase is much less than there has been in the past year in iron, steel, lumber, coal and other articles which the rallroads must buy in large quantities. Stein for example, have more than doubled in price and lumber has increased 20 per cent on average. Even with the enormous traffic now offered the railroads cannot earn dividends and maintain the old rates. Naturally, there will be a diminite oil rates, Naturally, there will be a diminition in the traffic and when it comes the railroads will be forced of necessity to apply a remedy.

An increase of a fraction of a mill per ton per mile is almost imperceptible to the individual shipper or consumer, but a fractional increase in the railroads and reasonable prosperity—and the powers. per or consumer, but a fractional increase in the per or consumer, but a fractional increase in the rate per ton per mile is all that stands between the railroads and reasonable prosperity—and the powers hat be are demanding that the rates be placed upon dividend earning basis.

intermediate points to Galveston and New Orleans make lower export rates on these commodities from Kansas City, Mo., or points in that vicinity, than from some of the intermediate stations on their respective lines. It is held that the higher ratis from such intermediate points subject those localities to indue prejudice, and that if the carriers are allowed to make these low export rates, they should in making them treat all intermediate territory alike, and desist henceforth from charging higher rates to the nearer stations than those at the more distant points.

A Gratifying Increase.

The Pittsburg & Gulf has been-like all other lines in the country-laboring under a disadvantage in the matter of equipment, and it is easily within the bounds of possibilities to state that the earnings would have been shown an increase at very nearly \$200,000 had the traffic officials been in a position to have taken all the freight offered. The increase in the interchange business at Kansas City has been beyond expectations and the numerous industries that are being established along the line are conducive to an increase in revenue—and the line is quite are.

LITTLE ROCK, ARK.. Nov. 14.—The last rail of the Choctaw & Memphis railway was laid in this city to-day, being the final link in a line extending from Memphis, Tenn., to Weatherford, O. T., a distance of 563 miles. The steel bridge across the Arkansas river was also completed and the first engine ran over it to-day. In a few days trains will be run through from Memphis to Weatherford.

The completion of the Choctaw route from Weatherford to Memphis will open up some valuable territory to Kansas City commercial interests, and will give it another line to the Southeast and New

Santa Fe to Frisco.

NEW YORK, Nov. 14.—New York representatives of the Atchison, Topeka & Santa Fe railroad say that present indications point to the completion of the Atchison's own line into San Francisco by January 2. About eighty miles of new track will then have been completed from Stockton, Cal., to Point Richmond, on San Francisco bay. The Atchison will also have its own terminals, trains being ferried across the bay. Other new construction for the Atchison system is going forward with celerity in Oklahoma and the Indian Territory. The Kansas, Oklahoma Central & Southwestern railway was projected to extend from Havana, Kes., via Clancey, Kas., and Bartlesville, I. T., to Collinsville, I. T., a distance of sixty-six and a half miles.

Another extension is also under way from Hunnewell, Kas., to Tonkawa.

on the part of each company is voluntary and is based on growth and earnings. Engineers and fremen on all the heavier engines of the Eastern Illinois will have their wages raised on the milage system. Engineers are to receive 15 cents more per 199 miles than now, and the pay of fremen will go up in proportion. On the lighter locomatives the increase will be about 19 cents per 199 miles. This will mean from 15 to \$10 more per month to several hundred employes.

To Fight Advance in Rates. EMPORIA. KAS. Nov. 14.—(Special.) The lumber men of Lyon and adjoining counties met here this evening and formed an organization, the object being to fight the proposed increase in lumber rates by the railroads in this territory. The rate to Emporia from Southern points is at present 5½c higher than Kansas City rates, and the lumber men cannot see why an additional 2½c should be charged. They will carry the matter to the state board.
